shade solutions

# About the company...

Woodline Shade Solutions is a reflection of our German Namibian founder and CEO, Fritz Walter, who's outdoor experience has taught him that to live, work and relax outside one needs the best designed products made to the highest quality levels.

His marine life skills and passion for engineering excellence has allowed him to develop a range of products and materials starting with the traditional center pole umbrellas right up to the strong and durable marine range.

With more than 25 years' experience in the shade industry, we at Woodline understand that our customers want us to provide the products and services they need on time, every time.

Continued challenges in the market dictate that we do things differently – internally in the way we operate and externally in the way we serve our customers. To meet these expectations, we are totally committed to providing understandable information, meaningful choices and quality products.

Whether you are an existing or first time customer, we are committed to earning your trust. It makes sense – for our clients and our business.

Welcome to the 2018/2019 collection of Woodline's unique parasols, and thank you for your interest in our products. We are confident that you will find our range to be of a world class standard of excellence.

## shade solutions

# Manufacturers of world class parasols made under the African sun

Africa is the one continent that knows the importance of shade more than any other. Knowing that extreme and unpredictable weather will find the weakest point in any outdoor structure, we have engineered our shades to cope with these rapid changes in the outdoor environment.

Every aspect of our shade systems has been designed and produced to the highest standards possible for strength and longevity. Woodline only uses high grade non-corrosive materials for our canopy frames and structures, such as lightweight aluminum, ultra weather-resistant eucalyptus (sourced only from sustainable forests), and stainless steel for its remarkable strength.

For the last twenty five years, Woodline Shade Solutions has been supplying a comprehensive range of top-quality, price-competitive OEM parasols for the local and international market. Well-known international brands and contract market customers have benefited from our premium grade screen printing and the latest latex digital printing on their canopies, providing excellent branding opportunities for commercial applications.

**MANUFACTURER OF PARASOLS**  
*We are the biggest manufacturer of parasols in Africa*

**YEARS OF EXPERIENCE**  
*We have been manufacturing our unique line of parasols since 1990*

**STAFF MEMBERS**  
*We supply jobs to over 100 people in South Africa*

**COUNTRIES WE EXPORT TO**  
*Woodline supplies African-made shade solutions to the world*

# Woodline is based in the small town of Jeffreys Bay in the Eastern Cape province of South Africa

Jeffreys Bay has grown over the past few years from a sleepy little fishing town into one of the fastest expanding urban areas in South Africa. The town is situated just off the N2 Highway, about 46 miles southwest of Port Elizabeth, which is also home to two major shipping ports.

As proud manufacturer of our own products in our own factories, we ensure each product meets our standard of excellence, while providing jobs and opportunities to skilful artisans and a growing labor force. We have an experienced team on the ground at the factory in South Africa and in the United States who are dedicated to running the USA business.

Bolstered by the current expansion to our new purpose-built factory with significant growth potential, we are looking forward to a bright future.

# SKY

The SKY is a minimalistic free-floating shade solution that blends a mix of modern high-tech components with classic simplicity of design. The large horizontal canopy is ideal for substantial seating areas requiring unobstructed open space, while two or more may be grouped side-by-side for even bigger environments. With its intelligent use of assisting gears, the SKY is a breeze to open and close and the sturdy stainless steel TIG welded structure is rock-steady, even in strong winds.

## Canopy Sizes

### Rectangle

**9.5 x 13 ft**  
2.5 inch Pole Ø  
(2.9m x 4m / 63.5mm ø)

## Bases

### Metal plate

**88 lbs**  
(40 kg)  
43.3 x 17.7 x 0.5 inch  
Code: SKOB

\* Includes 2 powder coated steel bases and 2 stainless steel tubes

\* For alternative base options please refer to pages 50 – 51

# SKY

---

in a league of its own

---

**Wind Rating:** Strong Wind

**Application:** patios, restaurants, hotels, poolside loungers... areas that require a large shade solution with a unique modern design.

The SKY can accommodate seating for dining/seating groups of 8 – 10.

Canopy half open

Canopy closed

*Precision-engineered pivot box*

*Hard-wearing stainless steel fittings and structure*

*SKY base, designed for rock-steady stability*

*Reduction gearbox for easy opening & closing*

*Canopy closed with cover bag*

**Fabric & Colors**

**WOODLINE** Solution Dyed Acrylic fabric

117 Canvas

# Papillon

At heart, the Papillon is the absolute socialite. Its dual post framework invites views and conversations to go on, unobstructed, in glorious shade and shelter, day and night. This unique range of shade cannot help but bring an air of grandeur to its surroundings. It stands alone as the largest of all Woodline shade solutions and yet this extraordinary shade can easily be extended further by articulating two or more Papillon structures together. Fabric walls can also be attached directly to the frame and awning to provide privacy and shelter from the wind.

## Canopy Sizes

**Rectangle**

**10.0 x 15.0 ft**

2.4 inch Pole Ø  
(3.0m x 4.6m / 60mm ø)

PA346RESS

## Bases

*Metal plate*

**88 lbs**  
(40 kg)  
43.3 x 17.7 x 0.39 inch  
Code: PAMB

*\* Includes 2 powder coated steel bases and 2 stainless steel tubes*

*\* For alternative base options please refer to pages 50 – 51*

# Papillon

---

in a league of its own

---

**Wind Rating:** Moderate Wind

**Application:** patios, restaurants, hotels, poolside loungers... areas that require a large shade solution with a touch of elegance and style.

The Papillon can accommodate seating for dining/seating groups of 10 – 12.

Canopy half open

2 Papillons side by side with additional side walls and rain gutter

Reduction gearbox for easy opening & closing

Wind stabilizers folded

Papillon base, designed for stability

Rain gutter system when joining two Papillons

Two or more Papillon shades can be joined together, either side by side, with the use of an additional gutter to create one continuous awning, or placed end to end extending the shaded area linearly.

5453 Canvas

5439 Navy Blue

\*Actual color may be different to the printed swatch color.

Canopy closed with cover bag

Also available in stainless steel

# Picollo

This ingenious cantilever parasol range is exceptionally versatile and remarkably hard-wearing. The Picollo boasts a 360 degree rotation and also a unique side-to-side tilting feature that is intelligently designed to allow the canopy to track the sun and cast the perfect shade throughout the day.

The canopy fabric is attached using a quick-release system, making it a breeze to remove for seasonal changes or care and maintenance. Versatility, durability and aesthetic design all align to make the Picollo a genuine patron of shade.

## Canopy Sizes

# Pendulum

---

bold and strong cantilever parasol with 360 degree rotation

---

**Wind Rating:** Moderate Wind

**Application:** patios, restaurants, hotels, poolside or any area that requires a large shade solution without obstruction from a center umbrella pole.

360 degree rotate and lock

Pendulum patented canopy clip mechanism\*

Smart canopy attachment and release system for easy removal for cleaning or seasonal changes

360 degree rotation with lock feature

Smooth crank system to open and close canopy

\*The Pendulum's patented canopy clip mechanism has been designed to facilitate the quick and simple attachment and removal of the entire canopy assembly. The canopy is attached with a stay that hooks onto the frame structure and clips the canopy securely into place. This system is extremely strong and can endure the forces that canopies of these sizes are sometimes subjected to. It remains one of the quickest and easiest attachment methods.

Stainless steel spigot included as standard

# Pavone

This cantilever umbrella makes for more free space. It offers shade without the usual center pole umbrella base taking up the space. This makes the Pavone especially suited for large areas, but also for private use. Thanks to the easy-to-operate crank mechanism, the umbrella and the shade is held by a high-quality aluminum structure that is rotatable, reclining and retractable.

## Canopy Sizes

# Storm

Engineered for strength, the Storm is fashioned from ultra corrosion-resistant aluminum and marine grade stainless steel used in the construction of super-yachts. Its robust structure is designed to withstand the onslaught of nature's fury. Through careful consideration Woodline has selected and developed the most resilient canopy fabrics to be able to handle whipping winds and scorching sun. The built-in quattro pulley system of pure stainless steel assures smooth and effortless operation day after day.

# Mistral

The Mistral market parasol range, with its minimalist aesthetic look, perfectly illustrates the elegance of simplicity. Resilient, functional and maintenance-free, it hits the mark with longevity and style. The Mistral features natural anodized aluminum ribs and pole with non-corrosive composite glass-reinforced upper and lower notches. The canopy is opened and closed effortlessly with a built-in pulley system while all the fittings are stainless steel, including the hook used to keep the rope neatly wrapped.

The non-corrosive materials used in the construction of the Mistral make it ideal for seaside applications

# Swift

The Swift is a perfect parasol for small seating groups and compact areas like balconies and small gardens. Built with the finest materials available, this lightweight and portable design assures an easy setup and a trouble-free lifespan. The optional telescopic stainless steel pole makes it ideal for use over an outdoor table.

## base mounting options

---

Woodline concrete base systems are made to last. We use a combination of chemical additives, steel wire reinforcing and special fibres to add strength, longevity and a smooth superior finish.

### Double Paver Frame Kit (example with pavers)

The Paver Frame Base consists of a hot-dipped galvanized metal frame that houses standard 15.6 square inch paver slabs. To reduce shipping costs pavers can be purchased separately near installation location. Alternatively pavers can be included with base on special request. The frame houses either a single layer of 4 pavers (single layer  $\geq$  177 lbs/80 kg) or a double layer stack of 8 pavers (double layer  $\geq$  305 lbs/138 kg) with the aid of an extension kit.

Weight	use with Parasol	Parasol Model	Code
177 lbs (80 kg)	Safari	SA40RE	PVB/4SA
177 lbs (80 kg)	Safari	SA35RE	PVB/4SA
305 lbs (138 kg)	Piccolo	PI32RA	PVB/8PI
305 lbs (138 kg)	Piccolo	PI30SA	PVB/8PI
305 lbs (138 kg)	Pendulum	PE40RAS	PVB/8PE
305 lbs (138 kg)	Pendulum	PE35SAS	PVB/8PE
305 lbs (138 kg)	Pendulum	PE34REAS	PVB/8PE
305 lbs (138 kg)	Pavone	PA30SA	PVB/8PA
305 lbs (138 kg)	Pavone	PA35RA	PVB/8PA
305 lbs (138 kg)	Storm	ST35RSS	PVB/8STRM
305 lbs (138 kg)	Storm	ST30SSS	PVB/8STRM

Paver Frame Base - Single with double layer extension kit

The Paver Frame Base includes an extension kit. The extension kit is fitted to the frame when more weight is required by means of stacking four additional pavers to form an eight paver configuration.

The PVB4 base type is a four paver configuration while the PVB8 is a stacked eight paver base configuration.

Note: the pavers are not included and only displayed in this image as a reference.  
Recommended paver size 15.6 inches x 15.6 inches W x 1.7 inches H.

### Concrete Slab Base Kit

Classic hexagonal shaped, reinforced concrete base fits any Woodline center pole parasol with various combinations of weights and tube sizes available for desired applications.

# metal

---

base mounting options

---

Woodline metal stands are available in hot dipped galvanized (S\_HD-Gal) or powder coated (S\_PC) steel.

**Round Metal Plate Base (S\_PC) with Pole Tube (SS\_POL\_GB)**

The Round Metal Plate Base comes in various sizes for various wind exposures. The metal plate is made from steel which is powder coated (S\_PC) as standard. It can also be bolted to the floor and features nylon feet spacers.

Base Type	Weight	Size	Use with Parasol	Parasol Model	Code
Round Metal	35 lbs (16 kg)	20 inch	Mistral	MI27RA	RMBS508/48
Round Metal	35 lbs (16 kg)	20 inch	Mistral	MI20SA	RMBS508/48

**Oval Metal Plate Base (S\_PC)**

Oval Metal Plate Base mounted with a stainless steel 2.2 inch / 57mm Ø metal stand that fits the Sky shade. Can be bolted to the floor for extra stability.

Base Type	Weight	Size	Use with Parasol	Parasol Model	Code
Oval Metal	88 lbs (40 kg)	43.3 x 17.7 inch	SKY	10.0 x 13.0 ft	SKOB

# alternative

---

base mounting options

---

In addition to the movable metal and concrete bases, Woodline also manufactures alternative mounting solutions to meet every requirement.

### Universal Below Deck Mounting Bracket (SS)

The Universal Below Deck Mounting Bracket is bolted between the framework of supporting beams under a wooden deck. The Universal Base Plate is then mounted from above through the deck into the Universal Below Deck Mounting Bracket.

Mount Type	Weight	Packed size	use with Parasol	Code
Below Deck Mount	15.4 lbs (8 kg)	13.3 L x 13.3 W x 4.5 inch H	Any center pole, dual pole or cantilever	DECKM

### Universal Base Plate - Round (S\_PC)

The Universal Base Plate fits any tube. It is then mounted to an appropriate free standing or mounted base such as the Paver Base Frame, Underground Mount and Below Deck Mount. It can also be bolted directly to the floor.

Mount Type	Weight	Size	use with Parasol	Code
Universal Base Plate	5.33 lbs (2.4 kg)	7.9 Ø x 0.39 inch	Safari / Mistral / Papillon	UNI

### Underground Mount

The Underground Mount is designed to be concreted into the ground and is compatible with any of the Woodline shade solutions by means of a bolt-on pole stand for center and dual pole shades or spigot poles for the cantilever shade ranges.

Mount Type	Weight	Packed size	use with Parasol	Code
Underground Mount	13.2 lbs (6 kg)	22 x 8.2 x 8.2 inch	Any center pole, dual pole or cantilever	UNGR

### In-Ground Bayonet Pole Stand

The In-Ground Bayonet Pole Stand consists of two stainless steel parts, the in-ground tube (to be concreted into the ground) and the bayonet tube (that slides into the in-ground tube and fastens when twisted).

Mount Type	Weight	Packed size	use with Parasol	Code
Small Bayonet	8.8 lbs (4 kg)	36.2 x 4.7 x 2.7 inch	Mistral / Safari / 1,5 inch pole	IGBAY48
Medium Bayonet	12.1 lbs (5.5 kg)	40.9 x 5.1 x 3.7 inch	Safari / 1,9 inch pole	IGBAY57
Large Bayonet	14.3 lbs (6.5 kg)	40.9 x 5.1 x 3.7 inch	Safari / Papillon / 2,4 inch pole	IGBAY70

For OEM orders we can offer premium grade screen printing and the latest latex digital printing on our canopies, providing excellent branding opportunities for commercial applications and making our parasols as comfortable in the marketplace as they are in the home.

*\*Actual color may be different to the printed swatch color.*

# care & maintenance

Every Woodline shade solution is meticulously engineered to the nth degree to maximise not just their form and functions, but also to make sure that they outlast even the harshest conditions. Each item is crafted from the finest marine grade weather-resistant materials, specifically selected for their ability to endure. Though our shade solutions are built to last, the relentless and extreme nature of the outdoors dictates that proper care and maintenance will always extend the lifespan of any item.

## *Frames*

Constructed from the finest quality aluminum, marine grade stainless steel and durable and sustainable eucalyptus timber. Our frames have been tested in some of the world's most inhospitable environments and have only ever benefited from the appropriate application of caution and common sense in excessive wind conditions.

We advocate the use of our cover bags to prolong the life of the canopy frames and their covering fabrics. We recommend the closure and safe storage of any collapsible and removable components when the parasol is not in use or when winds are expected to exceed 25 mph (40 km/h).

## *Wooden Components*

We only use sustainable eucalyptus timber hand-picked for its strength, weather-resistance, and replenishment efficiency from the world's finest FSC-accredited plantations and timber mills. Our wooden components are treated with marine yacht varnish to fortify them for outdoor living. We recommend the periodic care of wooden components with a light sanding and reapplication of the varnish coating once a year to maintain the natural beauty of the wood.

## *Fittings*

All fittings, nuts, bolts, pulleys and cleat components are made with high grade stainless steel and weatherproof nylon. Maintaining these fittings and components is imperative to the longevity and the proper operation of the shade system. A simple occasional fresh water rinsing will help keep them working well and looking good.

## *Bases*

It is essential to pick the right base for your parasol, consult the Bases chapter as a guide and talk to our sales team to ensure that the parasol you choose has the appropriate base to keep it anchored properly.

## *Fabrics*

Our canopies and fabric covers are made from the most durable, colorfast, and dirt-repellent fabrics in the world. That said, proper care such as storage when not in use and cleaning from time to time will undoubtedly extend their lifespan.
